Gladiolus

Probably the most popular of summer and fall blooming bulbs. They are seldom troubled with insects or diseases, are easily grown and increase rapidly. Instructions for growing and increasing your stock sent with the bulbs. By planting as soon as danger of frost is over and at intervals of two weeks you can have gladiolus all summer.

These Gladiolus Prices are Prepaid in Missouri, Iowa, Kansas, Oklahoma and Arkansas. Other states add 10%. Three of a kind at dozen rate, 25 of a kind at 100 rate.

Gladiolus Collection No. 1, 2nd size \$1.40; 3rd size \$1.00.

36 bulbs, 6 each America, Halley, Ida Van, Chicago White, Mrs. Francis King, Sunbeam.

Gladiolus Collection No. 2, 2nd size \$1.75: 3rd size \$1.30 36 bulbs, 6 each, Mrs. H. E. Bothin, Le Marechal Foch, Herada, Lily White, E. J. Shavlor, 1910 Rose,

PLEASE NOTICE WE QUOTE BY SIZE. Gladiolus are graded by size from first to sixth and bulblets. First size is $1\frac{1}{2}$ inch and over in diameter, second $1\frac{1}{4}$ inch, third 1 inch. Naturally first size gives earlier and larger flowers, but all three are good blooming size and with suitable conditions will give nice results. In fact fifth size will almost all bloom though smaller spikes and flowers, so we hardly know what size is meant when offered as blooming size.

I

Peaches Bear the Third Year

Peaches come into bearing quicker than any other tree fruit, under proper conditions giving a crop the third year. Select varieties from early to late and you can have three months of peaches. The trees won't cost as much as you would probably pay for peaches in one year. And none are so delicious as those freshly picked when fully ripened on the tree.

A sandy loam or gravelly soil is best but the peach ada**pts** itself to almost any well drained soil. Planted 16x16 fe**et** requires 170 per acre; 18x18 feet, 134 per acre.

Price of One-Year Peach: XX size, 11-16 in. caliper up, about 4 to 6 ft		$10 \\ \$4.00$	100 \$35.00
Extra size, 9-16 to 11-16 in. caliper, about 4 to 5 feet		3.50	30.00
Standard size, 7-16 to 9-16 in. caliper, about $3\frac{1}{2}$ to $4\frac{1}{2}$ feet	35	3.00	25.0 0
Any five or more at the 10 rate; less at the more at the 100 rate.	each each	rate;	50 or
The following list is arranged approximatel ripening. The dates named are the approxima section.			
May Flower—The earliest; good size; red all productive.			
Guarantees. Lange encourse white with a well-	omigh	oogt k	

Greensboro-Large, creamy white, with a yellowish cast, beautifully colored crimson; flesh white, very juicy; an excellent early peach; mid June; hardy and a profuse bearer.

Carman-Large; creamy splashed red; juicy, rich, sweet, good; nearly free; hardy; productive.

Champion—Large: white, red cheek; flesh white, sweet, juicy, rich, delicious; freestone; early August, quite hardy; bears young; productive.

Belle of Georgia-Very large; white, red check; firm, juicy, high quality; freestone; early August, hardy; very productive; an excellent shipper.

J. H. Hale—A little more round and firmer than Elberta; about the same season.

Elberta—Very large; golden yellow, crimson cheek; firm, juicy, good; freestone; mid August, excellent shipper; vigorous, productive, profitable.

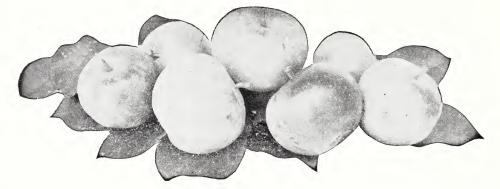

Crawford Late-Large; yellow, deep red cheek; juicy, rich; freestone; latter August-September.

Heath Cling—Very large; creamy white, sometimes faintly blushed; flesh white to the pit, rich, very juicy, sweet, fine; latter September.

PARCEL POST

If plants are wanted by parcel post allow extra for postage, except where quoted postpaid. Trees larger than 3 to 4 ft. cannot be sent by parcel post.

Apple Profits

Ed Hauser, a farmer near Nashville, Kingman county, Kansas, does not live in an orchard **se**ction but this fall he made a net income of more than \$600 from a 2½ acre orchard. The **932** bushels of apples which he picked sold for \$732. The cost of spraying and picking was **about** \$130. The record was taken from Mr. Hauser's answer to a questionnaire on orchard **sp**raying sent out by L. C. Williams, extension horticulturist at the Kansas State agricultural college.—Joplin (Mo.) Globe, Dec. 23, 1922.

Price of Two-Year Apple:	Each	Per 10	Per 100
XX size, about 4½ to 6 ft., 11-16 in., caliper and up, branched	\$0.65	\$6.00	\$55.00
Extra size, about 4 to 5 ft, 5% to 11-16 in., caliper, branched		5.00	47.50
Standard size, about 3½ to 4½ ft., ½ to % in. caliper, branched	40	3.50	32.50
Medium size, 3 to 4 feet		2.50	20.00

Any five or more at the 10 rate, less at each rate; 50 or more at the 100 rate.

Summer Apples

Ripening dates named are approximate average here; allow 5 to 7 days for each 100 miles north or south. Altitude also affects the date.

Early Harvest—Bright straw; juicy, rich subacid; good; very early; bears rather young; productive.

Red June-Very red; juicy, brisk sub-acid, good; medium size; June-July; a young bearer.

Autumn Apples

Maiden Blush-Large; clear yellow, crimsou cheek; very juicy, sub-acid; good for cooking and drying; bears rather young.

Winter Apples

Black Ben Davis-Large; rich red to maroon: firm, juicy, mild sub-acid; keeps well, ships well; bears young, regularly and abundantly.

Delicions—Roundish conic, medium to large, **pale** yellow, mostly covered with red, striped **dark** carmine; juicy; mild, sub-acid; good. **Grimes' Golden** — Of best quality; beautiful golden yellow; medium to large; crisp, juicy, rich sub-acid, aromatic; fine dessert apple, good for cooking, especially fine canned; Oct.-Dec.; blooms late; hardy; bears young.

Jonathan—Very attractive, lively deep red; high flavor; excellent for dessert, cooking and market: firm, crisp, juicy, very aromatic, mild sub-acid; Oct. and later; bears rather young.

Mammoth Black Twig—Greenish, largely overspread, dull, deep red, sometimes almost black; very firm, moderately juicy, sub-acid, good; keeps late.

Stayman Winesap-Large; attractive shape. greenish-yellow striped and often nearly covered with dark red; firm, crisp, very juley, aromatic, sprightly pleasant sub-acid; very good; keeps late.

Winesap-Bright deep red, flesh yellow, very rich. crisp, very juicy, sprightly sub-acid, very good; Dec.-March; bears young.

York Imperial—Large; attractive greenish-yellow shaded crimson; crisp, juley, sub-acid, becoming mild; Dec.; bears heavily and rather young.

Crab Apples

Transcendent-A large crab; golden yellow, crimson cheek; crisp, juicy, sub-acid; Aug.-Sept.

Parcel Post

If plants are wanted by parcel post, allow extra for postage, except where quoted postpaid. Any balance will be returned. Trees larger than 3 to 4 feet cannot be sent by parel post.

Made Good with Cherries

SCHUYLER STEVENS of Smith Center has demonstrated beyond question the value of cherries in Western Kansas. In 1915 he planted 500 trees. Now if you will recall the summers since 1915, every one excepting 1915 must be classed as drouthy seasons. In spite of adverse conditions, here is what Mr. Stevens says in a letter dated June 28, 1919: "The Dychouse were the first to ripen, then the Early Richmond and now the Montmoren-eies are on hand. The Wragg will follow in July. I will have about 300 crates and they bring me \$3.00 net as I require the crates returned. This will bring me \$900 for the cher-ries on four acres the fourth season." * I know Mr. Stevens personally, and I am fa-miliar with his method of orcharding. * * The secret of his success has been cultivation. He has never allowed a weed to grow in his orchard .- Chas. A. Scott, in Kansas Farmer, March 6, 1920. Wragg and English Morello are very similar if not identical.

Plant 18 to 20 feet apart on well-drained ground. The list is arranged in the order of ripening.

Price of Cherry: E XXX size 1 year 11-16 in. caliper up, about 4 to 5 feet, branched	lach 75	Per 10 \$7.00	Per 100 \$65.00
XX size, 1 year 3½ to 4½ feet, 9-16 to 11-16 in. caliper, branched		6.00	55.00
Extra size, 1 year, 3 feet to 4 feet 7-16 to 9-16 in. caliper, branched	50	4.50	40.00

Any five at the 10 rate, less at each rate; 50 or more at the 100 rate.

Early Richmond (May Cherry)-Medium size, round, bright red, darker when fully ripe; very juicy, sprightly acid; latter May-June; hardy, very productive; profitable; succeeds everywhere.

Montmorency-Rather large, dark rich red; juicy, pleasant acid; excellent; a week later than

Early Richmond; vigorous, hardy, productive; successful everywhere.

English Morello—Large, dark red, nearly black; flesh dark purplish crimson; juicy; rich acid; prolific; latter June-July; dwarfish.

Pear Trees

Price of Garber and Kieffer. XX size 2 year, 9-16 to 11-16 in. caliper, about 4 to 6 feet	Per 10 \$5.50 5.00	Per 100 \$50.00 45.00
Price of Bartlett.XX size 2 year, 9-16 to 11-16 in. caliper, about 4 to 6 ft70X size 2 year, 7-16 to 9-16 in. caliper, about $3\frac{1}{2}$ to 5 ft60Any 5 or more at the 10 rate: 50 or more at the 100 rate.		60.00 50.00

Pears are graded by caliper or diameter. The height is the approximate average and varles with the habit of the tree. Arranged approximately in order of ripening.

Bartlett-Large; waxy yellow with red blush; juicy, rich; latter August; bears young. Garber-Large, waxy yellow, red cheek; early Sept; good for canning and market and for pol-lenizing others; hardy; vigorous; very resistant to blight. Kieffer-Very large, rich, yellow tinted red; very juicy; develops good flavor if ripened slowly in a cool, dark room; very resistant to blight, hardy, very productive, ships well, profitable

hardy, very productive, ships well, profitable pear; Sept.-Nov.; bears about the fifth year: profitable pear; Sept.-Nov.; bears ab plant Garber to pollenize it.

DWARF PEARS

Dwarf Pear-Occupy little room, are valuable where space is limited and begin bearing young-

They may be planted 10 to 12 feet apart and kept headed back.

Duchesse d'Angouleme-Very large, greenish yellow, dull red cheek; juicy, melting, slightly granular; Sept. Oct.; productive, hardy, vigorous. XX. 5-8 in. caliper and up, 75c each; \$7.00 per 10; \$65.00 per 100.

Medium size, under 1/2 in. caliper, 3 ft and up		2.50	22.50
Leurum size, under /2 in. camper, o it and it			

Any five at the 10 rate, less at each rate; 50 or more at the 100 rate.

Blackberries Yield \$394 Per Acre

Early Harvest Blackberry, in experiments by the Missouri Agricultural Experiment Station, ylelded gross returns at the rate of \$347.60 per acre in 1919 and \$394.20 per acre in 1920.

Blackberries begin bearing the second year and may be depended on for regular, profitable crops ander suitable conditions. They are at their best in a strong, deep loam that will retain moisture, tending toward clay rather than sand. If properly tended they may be planted 2x6 feet, requiring 3600 per acre.

Early Harvest—The most profitable of all on account of its extreme earliness, hardiness and productiveness; glossy black, firm and ships well; growth strong. 35c per 10, 60c per 25, \$2.00 per 100, \$17.50 per 1,000.

50 at the 100 rate; 500 at the 1000 rate.

Raspberries Bear the Second Year

They begin bearing the second year, ripen between strawberries and blackberries, sell well and are reliable croppers under suitable conditions. Deep soil that will retain moisture during a dry season is desirable. Planted 3x6 feet requires 2,420 per acre.

Cumberland — Black; large; firm; excellent; midseason; hardy; productive. 40c per 10; 85c per 25; \$3.00 per 100.

King—Large; bright red; firm; good flavor; season early and long; hardy; productive. 40c per 10; 85c per 25; \$3.00 per 100.

Currants

Red and White, strong 2-yr. 20c each; \$1.75 pr. 10.

Abundance—Japan. Large bright red over yellow; juicy, sweet, rich; very good; cling; mid July; hardy, very productive; bears young.

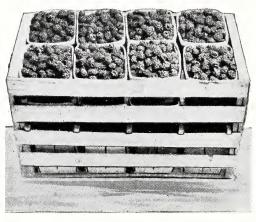

America-Large; golden yellow, distinct red cheek; juicy; cling; July; hardy; productive; bears very young, one of the most reliable.

Blue Damson—A blue plum of medium size, valued for canning and preserving.

Red June-Japan; dark coppery red; flesh yellow, juicy, sweet; semi-cling; early; productive.

Parcel Post

If plants are wanted by parcel post, allow extra for postage, except where quoted postpaid. Any balance will be returned. Trees larger than 3 to 4 feet cannot be sent by parcel post.

Blackberries

Dewberries

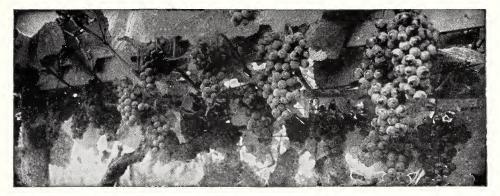

EARLIER THAN BLACKBERRIES

Lucretia—Large, often 1½ inches long; sweet and luscious throughout; for size and quality is unexcelled by any of the blackberries; ripens at the close of the strawberry season before Early Harvest; the variety most extensively grown for market. 50c per 10; 90c per 25; \$3.50 per 100; \$30.00 per 1,000. 50 at 100 rate; 500 at 1000 rate.

STRAWBERRIES

See page 3 for varieties and prices.

Grapes Bear After Freezing

SINCE living in Kansas I have several times seen the new growth on our grape vines killed by frost; but found that where grapes had been kept well pruned and cultivated they possessed sufficient latent force, owing to their widespread root growth, to push out new shoots from otherwise dormant buds * * * * You will find when your grape vines are frozen, even as late as the first of May, that if all green matter is frozen dead, then otherwise dormant buds will break and the new growth from them will come right on and produce new shoots, from which a fair crop of grapes will grow; but if a single joint of the first crop of shoots is left the new growth will start from the green bud on such shoots, and the resultant growth will not produce any grapes but will produce a shoot with leaves only. So if the new growth is not frozen back to the previous vear's wood it should at once be pulled off, thus forcing the latent buds to start.—Wm. H. Barnes, before the Kansas State Horticultural Society.

Agawam-One of the best red grapes; large.

Concord—The most popular; large, black, juicy, sweet; vigorous, very hardy, healthy, productive; mid to late August here.

Niagara-Large; pale yellowish-green; juicy, sweet; good for table or market; a white Concord; ripens with it or a little later.

Moore's Early-Black; about two weeks before Concord; desirable for home and market for its size, season, hardiness and productiveness.

Worden-Black; large; about 5 to 10 days earlier than Concord; berries larger, of better quality; vigorous, healthy, productive.

Plant 3x5 or 4x5 ft. A northern slope is best, especially in the Central and Southern States. 5 at the 10 rate; 50 or more at the 100 rate.

Houghton-Of medium size, but a profuse bearer and a money maker. Very free from mildew; the best for most sections; glossy pale dull reddish brown when ripe, but usually picked green. One year 15 each, \$1.25 per 10, \$10.00 per 100. Two-year 20c each; \$1.50 per 10; \$12.00 per 100.

One-year	No. 1	One	Two	Three		Per 100

Arborvitae, Chinese Seedlings, sheared pyra-
 midal.
 \$2.00
 32

Arborvitae, Mayhews-Similar to Berckman's, but arbornae, maynews—similat to bertsmarts, but green instead of golden. 15 to 18 inches..........\$2.75 each; \$25.00 per 10 18 to 24 inches.........\$3.50 each; \$32.50 per 10

Globe Arborvitae

Evergreens "Balled and Burlapped."

Pyramidal Arborvitae (center), Globe Arborvitae (left), Chinese Golden Dwarf Arborvitae (right).

Cypress, Plume (Retinospora plumosa)—Train-ed spreading for foundation planting. 12 to 15 inch spread......\$2.00 each; \$18.00 per 10 15 to 18 inch spread.......3.00 each; 27.50 per 10

Cypress, Golden Plume (Retinospora plumosa aurea)—Golden tipped foliage, most pronounced

when the growth is new. 18 to 24 inches.....\$2.50 each; \$22.50 per 10 2 to 3 feet\$3.50 each; \$32.50 per 10

Juniper, Irish-Finely cut bluish green foliage; dense, slender, columnar; growth rapid. 18 to 24 inches.....\$2.50 each; \$22.50 per 10

Juniper, Pfitzer—Gray-green; low, broad, ir-regular; one of the good rarer varieties. 15 to 18 inches......\$3.50 each; \$32.50 per 10

Juniper, Savin—Low and sproading in habit. An excellent border for large evergreens, and valuable for foundation plantings.

Pine, Mugho—A many-stemmed, low-branched dense dwarf Pine, thickly covered with dark green needles. It does not have one main trunk, but numerous stems which branch near the but numerous stems which branch near ground and turn upward. The new gro growth somewhat resembles candles ornamenting the plant. 10 to 12 inches, \$2.00 each.

Spirea Van Houttei, a fountain of white in May. (See page 10)

Hardy Flowering Shrubs

THE early days of Spring are brightened and made more cheerful by the great masses of Golden Bell, often blooming here in March. By a selection of those blooming at different times, for example, Pussy Willow, Dogwood, Deutzias, Bush Honeysuckle, Lilac, Mock Orange, Spirea, Hydrangeas, etc., a succession may be had until September. Shrubs give the lawn an attractive, finished appearance, and make a beautiful display in a year or two. They appear best in groups along the boundaries or division line, at the edges or corners of tawns, at the foundations of buildings, and along walks and drives.

Blooming dates named are for Southern Mis-souri. Five of a kind at ten rates.

Althea: Rose of Sharon — Of upright habit, reaching a height of 10-15 feet; hollyhock-like, flowers in late summer: easily grown; double
white, double pink, double red, single white. 18 to 24 inches

Peonies are Easily Grown

Peony Sizes and Prices

Prices are for good strong divisions averaging 3 to 5 eyes, from blooming plants. We consider them fully equal to one-year plants, they cost less and average larger than those usually sent out, many of which are grown from small divisions to make more plants.

Three of a kind at the dozen rate. Larger lots quoted by letter.

Canari (Guerin, 1861) — Guards white, barely white: large; fragrant; bomb type; late mid-season; long, strong stems; blooms freely; good. 40c each, \$4.00 per dozen.

Duchesse de Nemours (Calot, 1856)—One of the best regardless of price. Superb ivory white with pure white without a trace of crimson; one of the most beautiful both in the half open bud and full blown; medium to large; crown type; medium early to midseason; strong, vigorous growth; good stems; blooms freely. 40c each, \$4.00 per doz.

Duchesse d'Orleans (Guerin, 1846)—Large car-mine pink guards, center soft pink interspersed with salmon, becoming amber yellow; medium to large; bomb type; fragrant; midseason. This peony deserves a better rating than it gets. It is an extra strong, vigorous grower, very tall, a free bloomer and can be depended on for an abund-ance of blooms year after year. Ships well as a cut flower. 30c each, \$3.00 per doz.

Duke of Wellington (Calot, 1859)—Another in-dispensable variety. Two rows of broad white guards, center very full, sulphur white becoming pure white; fragrant; very large; bomb type; late; blooms freely; vigorous, with long, strong stems; as a cut flower, keeps and ships well; fine. 50c each, \$5.00 per dozen.

Edulis superba (Lemon, 1824)—Beautiful bright deep rose pink flowers with a quite extraordinary fragrance; crown type; large and of good form; extra early, several days before Festiva maxima. blooms freely over a long period; growth strong. vigorous, with long, strong stems. An extra good variety, both for lawn and cut flowers. 30c each. \$3.00, nor dozon \$3.00 per dozen.

Felix Crousse (Crousse, 1881)—Very brilliant rich, even dazzling ruby red; large; globular, solid and compact; bomb type; midseason; frag rant; blooms freely; fine. 75c each; \$7.50 per doz.

Festiva Maxima-Very large; white flecked car-mine: rose type; fragrant; early; tall; blooms freely. 50c each; \$5.00 per dozen.

Madame de Verneville (Crousse, 1885)—An enor-mous producer of extra fine flowers; large, com-pact, and very full, literally packed with petals; broad white guards, center slightly blush be-coming pure white, flecked carmine; large; bomb type; rose fragrance; very early; extra strong, vigorous growth, medium height, good stems; blooms very freely; fine. 50c each, \$5.00 per doz.

Queen Emma-A large, very full, fragrant bright light pink rose type flower; growth strong, erect; stems medium long; blooms freely; mid-season to late; an excellent cut flower variety as it ships and keeps exceptionally well. \$1.00 each.

Zoe Calot (Miellez, 1855)—Very large, very full globular bloom; soft pink tinted lilac; fragrant. midseason; growth strong, upright, good medium height; very stiff stems; blooms freely. 40c each \$4.00 per dozen.

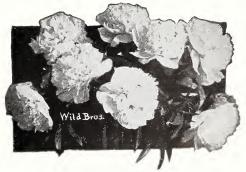

Crown of Gold Peony

Pennant Mixed Peonies

If you want something good at a moderate price and do not care about the names or just what colors you get just so they are nice, order Pennant Mixed. This is not a cheap lot of un-desirable varieties but a really good mixture of named peonies, the leading commercial varieties predominating. Do not ask for certain colors of these as they are grown mixed. 25c each, \$2.50 per doz., \$18.00 per 100.

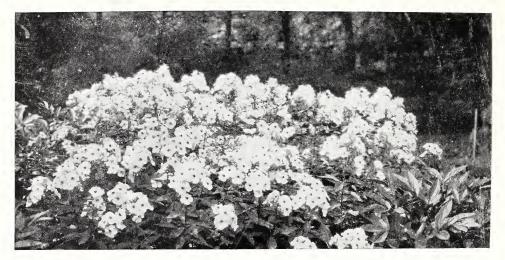

Peony Surprise Collection

6 for \$2.50; 12 for \$4.50. We will furnish six good named Peonies, all different, for \$2.50, or twelve, 6 varieties for \$4.50. At this price the selection must be left to us but we promise you a good selection and good value. Postage extra if wanted by parcel post.

Duchess de Nemours Peony

Superb Hardy Phlox

Phlox give brilliant summer effects. Strong field grown plants, \$2.00 per dozen.

HESE are easily grown and give brilliant summer effects. Many are delightfully fragrant. They are excellent in a mixed border, but the most imposing effects are produced by planting masses of each color. Plant 18x24 inches apart.

PRICES: Strong field grown plants that bloom the first summer, 20c each; \$2.00 per doz. Six or more at the dozen rate.

Eclaireur—Rich crimson-carmine, darker eye, lighter halo; strong grower; free bloomer; fine. F. A. Buchner—A fine large white.

Jules Cambou-Magenta purple, lighter eye.

La Vogue-Mauve pink, aniline red eye; large floret, heavy truss; tall; blooms freely.

Miss Lingard—The earliest in this list; pure white. faint lilac eye; tall, excellent.

Mrs. Jenkins—A good early white; a strong grower and a free bloomer.

Rheinlander-Beautiful salmon pink.

Richard Wallace-White, carmine eye. R. P. Struthers-Clear cherry red, with darker eye; large floret, heavy truss; tall; growth strong Rheinstrom-Salmon-pink, clear and bright;

large: a good grower. Von Hochberg-Ideal dark crimson; large.

These vines are outdoor grown and not to be confused with the small plants sold at low prices. Five of a kind at the 10 rate, less than five at the each rate.

Boston Ivy—A graceful vine, clinging to wood, brick or stone: leaves 3 to 5 lobed, in autumn bright red and orange. 60c each; 2 for \$1.10; 5 or more at 50c each.

Clematis Paniculata; Japanese Clematis-One of the most beautiful hardy vines with its thousands of pure white four petaled starry flowers in large panicles fairly covering the upper part of the vine in August or Sep-tember; its fragrance resembles the English Hawthorn; of rapid growth. 2-year 40c each, \$3.50 per 10.

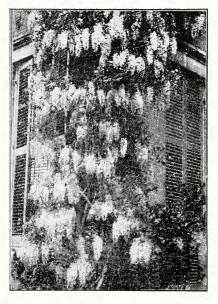

Euonymus radicans (Winter Creeper)—A graceful evergreen clinging vine; small foliage rather larger than boxwood; suitable for northern exposures of brick or stone; rather slow but very dense growth. 25c each; \$2.00 per 10.

Honeysuckle, Scarlet Trumpet-Flowers red, buff inside. 2-year, 40c each.

Honeysuckle, Hall's Japan—Almost evergreen: fra-grant white flowers, becoming yellow, xx plants, 35c each; \$3.00 per 10. No. 1 plants, 25c each; \$2.00 per 10.

Ivy, American (Virginia Creeper)—The well-known native five-fingered Ivy; rapid growth; excellent for natural effects; clings to stone or wood. 25c each; \$2.00 per 10.

Wistaria, White-An attractive and rapid grower with numerous hanging clusters of white, pea-shaped flow-ers. 2 year, 30c each; \$2.50 per 10. 1 year, 25c each; \$2.00 per 10.

Wistaria
